

# New for spring 2009

## Mail Cottage

*- a personal visiting card facing the street*

Wherever you place it, this mailbox gives your visitors the first clue as to who really lives at your address; perhaps it matches the house, the surrounding garden or even the nesting box you have already purchased from Wildlife Garden. Whichever model you choose, it will be a welcoming and appreciated eye-catcher for the owners, visitors and even the post-man.

Who ever said that mailboxes had to be boring?

The Mail Cottage is a Swedish designed mailbox made in pine. It is painted with environmentally friendly water-based paints suitable for outdoor use. It is simple to assemble and includes instructions and screws; all you need is a Phillips® screwdriver and a post to fix it to.

Art. no.: WG307 (red), WG308 (yellow), WG309 (white)

### *Product facts*

**Weight:** 2.3 kg  
**Measurements:** 320 x 210 x 390 mm (wxdxh)  
**Quality:** Pine painted in environmental friendly colours

## Tower house

*- the nesting box you can keep a check on!*

New for this spring is a turreted nesting box adapted to the birds' own habitat. With its angular shape and unpainted wooden surface it is in harmony with its natural surroundings – and it ages beautifully as a result. With just a few simple moves it can be quickly transformed from a nesting box to a feeder. The food remains protected from rain and snow and spillage to the ground is minimized. Under the ceiling there is also space to attach a web camera – so that we can see what life is really like in a nesting box during spring with our own eyes.

The Tower house is made of solid and naturally coloured wood and is supplied together with a practical attachment block making it easy to take it down and clean it. Just like the other nesting boxes in Wildlife Garden's range, the Tower house is equipped with ventilation holes and grooves so that young birds can climb up when it's time to leave the nest. Nothing has been left to chance.

### *Product facts*

**Weight:** 0.75 kg  
**Measurements:** 210 x 175 x 255 mm (wxdxh)  
**Quality:** Natural solid wood

## DecoClips - *hang out your washing just like in olden times, but now even more beautifully*

At last you can replace all your boring old plastic clothes pegs with carved handicraft, just like the old model. DecoClips is a new series of old-fashioned clothes pegs decorated with hand-made animal heads which quite simply make it more fun to hang out your washing all summer long. Towels, sheets and beachwear all become more beautiful when they are hung up with these lovely clothes pegs.

DecoClips are old-fashioned clothes pegs made and completely free of metal or plastic. The hand-carved animal heads are made of lime wood and hand-painted in environmentally friendly and water-resistant paints. The series includes six wild animals from our countryside; mallard duck, rabbit, frog, owl, fox and badger.

### Product facts

Art. no.: WG551 - WG556  
Quality: Lime  
Weight: 6 g  
Measurements: 15 x 25 x 110 mm (wxdxh)

## DecoBird® - *the summer birds are soaring*

DecoBird®  
Art. no.: WG421 - WG422

DecoBird is a series of hand-carved wooden birds that have now been joined by two flying summer birds; the swift and the house martin. Hanging from a thin wire, alone or in a flock, they adorn the ceiling, the window, the veranda and make a wonderful mobile to hang above a cot.

The birds are hand-carved in lime wood in their natural size and shape and, like the rest of the range, they are hand-painted in environmentally friendly paints.

They are supplied with wire and a small hook to attach to one of the pre-drilled holes in the back. The holes are used to achieve different angles of flight, giving a more natural impression.

If you would like to learn more about swifts and house martins as well as the sounds they make, please visit Wildlife Garden website: [www.wildlifegarden.info](http://www.wildlifegarden.info).

### Product facts

Measurements: Natural size  
Quality: Hand carved in lime wood and painted with non-toxic colours.

## Wildlife Garden

Wildlife Garden is located in southern Sweden and we supply products that encourage a living garden. Our business concept is to sell decorative products that also serve a purpose for the wildlife enthusiast.

Our design and development focus is on good quality, well crafted products that reflect what is genuinely Swedish.

We are FSC-certified and are working hard to produce our products according to their stringent guidelines. The FSC is a non-profit making international independent organization. Products carrying the FSC label are independently certified to assure consumers that they are made from wood from sustainable forests that are managed to meet the social, economic and ecological needs of the present and future generations.
