Welcome to The Lodge

The Multiholk series has become a modern design classic for people who appreciate the garden. This series of combined nesting boxes and feeders has increased to 14 different models over the years, the new design for autumn is The Lodge.

Multiholk Plus is a combined feeder and nesting box that can be mounted on both a pole and a wall. The series includes the earlier models Red Cottage, Yellow Cottage, Functional and Mountain Cottage. Choose the model that best matches your own house!

Wildlife Garden's products are manufactured in collaboration with ornithological expertise and it is clear that each product is given a great deal of thought and knowledge. Fill the house with seed in the autumn and watch the small birds as they sit on the perches and eat from the feeding windows. When spring arrives it's time to transform the Multiholk into a nesting box in just a few simple moves. The Lodge is stained brown using environmentally friendly colours.

Product facts

Name:	Multiholk Lodge
Article number:	WG117
Weight:	1 kg
