## Mail Cottage

### A personal visiting card for the front of your house

Wherever you place it, this mailbox gives your visitors the first clue as to who really lives at your address; perhaps it matches the house, the surrounding garden or even the nesting box you have already purchased from Wildlife Garden. Whichever model you choose, it will be a welcoming and much-appreciated eye-catcher for the owners, the visitors and the postman. Who ever said that mailboxes had to be boring?

The Mail Cottage is a Swedish designed mailbox made in pine. It is painted with environmentally friendly water-based paints suitable for outdoor use. It is simple to assemble and includes instructions and screws; all you need is a Phillips® screwdriver and a post to fix it to.
