Let in DecoBird - Hand carved garden birds

Wildlife Garden presents three new hand carved, realistic wooden birds to its range of DecoBirds; the Wren, the Pied Flycatcher and the Dipper.

The collector range DecoBirds was launched in 2007 and has now been increased to 20 different birds. The new additions are, as their predecessors, hand carved and brush painted birds in Lime wood. The birds are manufactured in a natural size, with well-known European birds as a model. DecoBirds are painted in environmentally-friendly, water-resistant and UV tolerant acrylic paint. The birds can, therefore, be a compliment to your interior or be placed out in the garden.

New in the series is the restless mini bird, the Wren, the territorial Pied Flycatcher and Norway's national bird the Dipper. Each bird comes individually packaged in a gift box with a brochure containing facts about the bird species.

For those who become curious and want to learn more about our birds, visit our "Bird school" at www.wildlifegarden.info where you can learn to recognise 60 of our most common small bird species and can listen to their different songs. The website also contains full details about the company's other products.

Product fact

Name:	DecoBird
Article number:	WG413, WG414, WG415
Material:	Hand carved in lime wood and brush painted in wood with environmentally friendly paint
Size	The birds are life sized
Recommended sales price:	12,99 GBP
Where to buy:	Visit our website at www.wildlifegarden.co.uk to find local stockists or our web shop
