### A trendy bird

No one can mistake the fact that birds have become a strong trend in interior design. DecoBirds from Swedish Wildlife Garden are a collection of lifelike birds hand carved in lime and hand painted using environmentally friendly paints. The latest addition to the collection is the Chaffinch, a familiar bird in Europe that is characterized by its orange breast and characteristic song! On our website [www.wildlifegarden.info](http://www.wildlifegarden.info) there is a bird school where you can listen to the sounds of the Chaffinch.
